

Mega Probiotic™ ND 50

YOUR LOGO
GOES HERE

Mega Probiotic™ ND 50 contains 9 species of microorganisms from non-dairy sources. Because each strain has an affinity for a different part of the digestive tract, and a unique mechanism of action, a product that delivers multiple strains is preferable to single strain products.*

Mega Probiotic™ ND 50 also contains added Fructooligosaccharides (FOS), a soluble fiber and prebiotic that selectively supports the proliferation of intestinal probiotics for digestive tract health.*

Mega Probiotic™ ND 50 is:

- Guaranteed to contain 52.5 billion CFUs of microorganisms in each vegetarian capsule.
- A non-dairy multi probiotic product to best mimic normal human flora.*

Recommended For:

- Individuals who are lactose intolerant*
- Normalizing digestion*
- Supporting regularity*
- Urologic support*
- Immune system support*

About the Formula

- **Lactobacilli** (*L. acidophilus*, *L. rhamnosus*, *L. casei*, *L. salivarius*) are located in the small intestine and produce lactic acid. Many strains of bacteria from the *Lactobacillus* family have been shown to support regularity, urogenital and vaginal health, production of the lactase enzymes and protect the gut lining from unwanted materials.*
- **L. salivarius** is a strain of beneficial bacterial that has been shown to resist low pH conditions. It has also been shown to support immune system function by modulating certain cytokines (IL-10 and IL-12).* In vitro studies have shown that *L. Salivarius* strongly adheres to human epithelia cell lines. This interaction with the mucosa demonstrates its support of the intestinal immune system.*

- **Bifidobacteria** (*B. breve*, *B. longum*, *B. bifidum*) are located in the colon and produce lactic and acetic acids, making the gut a very inhospitable place for unwanted materials. Bifidobacteria have been shown to promote regularity.*

- **Streptococcus thermophilus** is also a lactic acid producer, which lines the gut wall to provide a barrier from unwanted materials, promotes regularity and produces the lactase enzyme.*

- **Fructooligosaccharides** (FOS) are considered a soluble fiber and prebiotic, which supports the growth of beneficial microorganisms in the intestinal tract.*

Supplement Facts

Serving Size: 1 Capsule

Amount Per Serving

Stabilized Nondairy Probiotic Complex 246 mg
(52.5 Billion CFU)

Lactobacillus acidophilus, *Lactobacillus plantarum*,
Lactobacillus casei, Fructooligosaccharides (FOS),
Lactobacillus salivarius, *Lactobacillus rhamnosus*,
Streptococcus thermophilus, *Bifidobacterium breve*,
Bifidobacterium bifidum, *Bifidobacterium longum*

Other ingredients: microcrystalline cellulose, vegetable cellulose (capsule), ascorbyl palmitate, silica.

Warning: If pregnant or nursing, consult your healthcare practitioner before taking this product.

Suggested Use: As a dietary supplement, take 1 capsule once or twice daily, between meals or as directed by your healthcare practitioner.
